Scion tC	05-up	EGO TS 2	
Scion xD	06-up	EGO TS 1	

EGO DASH TS Kit Wiring Harnesses Options

Please indicate wiring harness when ordering.

Harness	Part Number	Remarks	Connector(s)
A*	01056WIH-TSA	For Marc Levinson head-units in: <i>Lexus ES300/330; GX470; IS200/300</i> <i>Toyota Land Cruiser 100/120/200</i>	
B*	01056WIH-TSB	For basic factory head-units in Toyota, Lexus and Scion vehicles. (Fits all Scion vehicles, regardless of head-unit type)	
C*	01056WIH-TSC	For JBL/Marc Levinson factory head-units in: <i>Lexus ES350; GS300/400/430/450h; LS430; LS600h;</i> <i>LX470; RX300/330/350/400h; SC430</i> <i>Toyota 4Runner; Avalon; Camry; Corolla; Highlander;</i> <i>Prius; RAV4; Sequoia; Solara; Tacoma; Tundra;</i> <i>Vienta; Vista; Windom</i>	
D**	01056WIH-TSD	For Lexus IS and RX w/o Marc Levinson head-unit. Connects to amplifier in trunk or under rear seat. Comes with mute relay, extension cord and adapter.	

* Most installations require wiring harness “B”. However, we recommend having a few “A” and “C” wiring harnesses in stock in order to be prepared for non-basic factory head-units installations.

** Wiring harness D is for special Lexus applications only and must be ordered separately.

IMPORTANT

- There are very few Toyota, Lexus and Scion where wire-splicing is necessary.
- Models with Nakamichi, Mark Levinson, Navigation, JBL or CD Changer equipped factory entertainment systems may require a different wiring harness, wire cutting and splicing. Please contact EGOCorp USA for more information.
- This application guide only applies to factory head-units w/o any modifications.
- Cutting or splicing into vehicles OEM harnesses may void the vehicles manufacturer’s warranty.
- Errors and omissions excepted.

Mobile Phone Compatibility

The EGO DASH TS Bluetooth hands-free car kit supports 99% of all available Bluetooth enabled mobile phones.

The remaining 1% consists of mobile phones with very limited Bluetooth connectivity, such as older, 1st generation Bluetooth mobile phones. A very small number of the newer mobile phones are not compatible with Bluetooth accessories or offer limited Bluetooth functionality, due to the fact that they don’t conform to the current Bluetooth standards.
